

Cartridge & DE Filter Cleaner

- completely removes all contaminates & degreases in minutes.
- promotes longer filter cycles and more efficient filtration.
- it's as simple as spraying on and hosing off, no soaking!

POWER BLUE CARTRIDGE & DE FILTER CLEANER™

If you're looking for unbelievable results, it's here! Our Cartridge & DE Filter Cleaner completely removes all contaminants & degreases in minutes without soaking over night. This cleaner promotes longer filter cycles and efficient filtration. It's as simple as spray on and hose off.

DIRECTIONS FOR USE:

CARTRIDGE FILTER

Adjust spray nozzle to stream, spray inside fabric pleats. Hose off using garden hose with spray nozzle. For best results, let cartridge air dry for fibers to expand.

DE GRIDS

Open tank DE filters: Drain water from tank exposing grids. Rins off old DE powder. Spray directly onto the grids until saturated, Hose off using garden hose with spray nozzle. Open inlet valve to allow water to rinse over grids. Close inlet valves, drain tank, refill tank, precoat as usual.

Pressure DE filters (grids inside closed tank):

Drain water from tank, remove lid and hose old DE off of fabric. Remove grids as recommended by filter manufacturer. Spray directly onto the grids until saturated. Hose off.
